

The Morris County Sexual Assault Center works to empower women, men and adolescents aged 12 years and up who have been sexually victimized, as well as their families and partners, and assist them in making the transition from "victim" to "survivor". We are committed to providing survivors with services that support their own strengths, and encourage them to regain control of their lives through their individual healing process. We offer all services in both English and Spanish. These services are free of charge regardless of gender, race, religion, economic status or sexual orientation. Our services include:
